Winter 2012

“Helping you put a smile on life”

**Open day**  
Friday 10th February

The practice will be running an open day on Friday 10th February for new or existing patients to have a **FREE CONSULTATION** on any dental issue that concerns them. If you have friends or family who have a

problem we would be happy to give an opinion and advice.

Please contact reception on **01978 757409** to book in.

## Practiceplan Perks

In March we will see the launch of Practiceplan Perks, an innovative new website that gives you access to a range of exclusive offers and discounts on hundreds of goods and services from well known high street brands. There are even opportunities to take part in VIP evenings at retail outlets offering exclusive and one-off promotional discounts!

Discounts are made available through a secure, easy-to-use website. Once on the site, you can navigate freely, investigating the goods available and the discounts offered. When ready to buy, you will then be directed to the supplier's website and given a special promotional code which, when used, will release the savings directly or through vouchers.

The Practiceplan Perks website is accessible to all members of the practice, so if you are already a member we will be sending along information to help you get started. If you are not a member of the practice, why not find out how you can budget for your dental maintenance and save at the same time!

Available from March 2012.

“I save 5% on all my food shopping at Sainsbury's and Asda with Practiceplan Perks – that's nearly £300 a year!”  
- Joyce Gibson, Regular Perks User

# January 2012

On behalf of everyone at Gwerysllt Dental Care may I take this opportunity to wish all our patients a happy and healthy 2012. This newsletter is to highlight events happening within the practice during the first half of 2012. I hope you find it useful and informative.

## Dental Therapist

Many of you will have already seen LeighAnn for treatments. She has worked at Gwerysllt Dental Care for the past 11 years and we will be utilising her skills and increasing her hours to help with the workload after Laura leaving. The role of a Dental Therapist is to carry out routine dental treatment such as fillings, impressions, radiographs, whitening, extractions in children as well as prevention and plaque control, cleaning, cosmetic

polishing and maintaining the health of the gums. LeighAnn has a wealth of experience both clinically and academically, regularly teaching at Liverpool and Manchester Universities for the past 8 years and is past president of The British Dental Therapist Association. If any patients haven't seen LeighAnn before, they can rest assured that they are in good hands.

## Inman Aligners™

We hope in the near future to introduce a new treatment to the practice designed to straighten front teeth quickly and easily. Inman Aligners™ are a removable clear orthodontic appliance which can straighten front teeth, usually in under 12 weeks.

There are many benefits:

- It is much quicker and cheaper than conventional orthodontics
- It does not require any teeth to be removed
- They are less noticeable than conventional braces
- They can be removed for periods throughout the day.

There are a number of significant possibilities with this treatment as they are ideal for minor crowding of front teeth, poorly aligned teeth or restored teeth. It also has the potential to significantly reduce the amount of tooth removal needed in veneer cases, keeping the teeth stronger. Again, once this is up and running we will let you know, but don't be afraid to ask!
